Subject:

length over score search 09/828,344

This is my last one I promise...

I need a length over score nucleotide sequence search on nucleotides 652 through 772 of SEQ ID NO:3 in the above entitled case. I need the lower and upper limits to be 8 and 50, respectively, I need any hits that is above 65% complementary, and please transfer as many hits into the excel program as possible. If you can search the interference databases, please do so.

Thanks,

Doug Schultz
